

Life Changing Care

Home care that knows the hard part.

When Your Families Need More Hours

A NOTE FOR PROGRAM STAFF

Families often leave your program needing evening, overnight, or weekend coverage you cannot provide. Life Changing Care is a licensed home care agency serving Cleveland metro with credentialed caregivers and 15 years of background in complex and behavioral care. We ask to be the agency you hand to those families.

FOR FAMILIES WHO NEED CARE OUTSIDE PROGRAM HOURS

In-home care for adults and seniors, including support for behavioral and memory-related needs.

WHAT WE DO

We come to the home. We help with daily routines, bathing, meals, and mobility. We provide companionship. We support adults with behavioral challenges and memory-related needs, including dementia. We can cover morning and evening shifts, overnight care, and weekends.

WHAT TO EXPECT WHEN YOU CALL

A real conversation about your situation. Samuel Saunders answers the phone. We will ask the right questions, explain what we can offer, and give you a clear picture of next steps. Most families are matched with a caregiver within a few days.

WHAT THE DSP CREDENTIAL MEANS

Every Life Changing Care caregiver carries the **Direct Service Provider (DSP) credential**, a national competency standard for direct care workers. It is not standard at most agencies. We require it for everyone we hire. The DSP credential means your caregiver has been trained and assessed in person-centered care, behavioral support, and documentation. You are not getting someone placed to fill a shift. You are getting someone qualified.
